

High-level conference on Green Transition 28.11.2023

Embassy of Sweden
Rome

Camera di Commercio Italo-Svedese
Assosvezia

Background

- The Sweden + Italy Green Alliance is a Team Sweden initiative aiming to create a cooperation and matchmaking platform to position Sweden and Swedish companies as strategic partners to Italy in its path to becoming a circular and carbon-neutral economy
- The objective of the high-level conference on Green Transition is to **foster knowledge exchange and to strengthen the Swedish-Italian relations on green transition and deployment of clean energy**, by sharing experiences, best practices and discussing challenges
- The industry-focused roundtable discussion will gather key experts, industry leaders, government stakeholders and technology providers to cover topics linked to the **acceleration of renewable energy sources in Europe and innovative technologies related to clean energy**. This will include highlights of different Swedish and Italian initiatives within the following sub-topics:
 - Green investments and projects where Italy and Sweden can collaborate
 - Megatrends in the energy sector
 - Increasing the production capacity of renewables (wind, solar, hydrogen) and improving permits and legislation
 - Supply chain – key stakeholders and collaborative models
